# Curated, in-person education built entirely around you

## ZOLL® Academy Day

### Experience a customized day of learning based on your group's unique priorities, products, workflows, and more

ZOLL Academy Day brings the training to you with an onsite learning experience designed around what matters most to you. Our subject matter experts develop your curriculum to support the products you own, the workflows you have in place, and goals you identify. Developed in partnership with the host agency, association, or council, each event is customized to support the needs of its audience.

### What you'll take away:

- Role-based product knowledge and best practices
- Improved workflow understanding and consistency
- Increased confidence using ZOLL solutions
- Recommendations, resources, and next steps for continued enablement, learning, and adoption

### Sample topics covered:

- Product education
- Workflow best practices
- Reporting and analytics
- Adoption and optimization

### Why choose ZOLL Academy Day:

- Learn onsite using your own devices, in a familiar environment
- Benefit from a role-based learning experience
- Receive training designed for your organization's needs and priorities
- Engage directly with ZOLL experts for practical, relevant guidance
- Receive recommendations for how to apply new skills to daily workflows with greater confidence
- Gain actionable strategies to drive adoption, help optimize workflows, and get the most from your ZOLL EMS software

## How it works:

| ZOLL provides at no charge: | The host organization provides: |
|---|---|
| • Program planning and agenda development<br>• ZOLL subject matter experts<br>• Educational content and live delivery<br>• Travel for ZOLL presenters | • Venue and room setup<br>• Required AV, power, and reliable internet<br>• Registration, promotion, and attendee communications<br>• Food and beverages and other onsite needs |
