## Code Review

### Bug Fixes

- Cases from the AED Pro would sometimes appear as one case instead of two separate cases.

## ZOLL SDK

### Bug Fixes

- Timesync would fail for cases where the binary representation of the time difference contained a certain sequence.
- Changes made to the parser to support the new AED Pro/ AED Plus software so that cases are no longer off by 3 seconds and the events are sorted correctly.
- Cases from the AED Pro would sometimes appear as one case instead of two separate cases.
- Fixed a missing registry issue which caused problems when uploading 12-lead data.
