#### \*Notes:

1. ZOLL recommends the ZOLL Data Relay Service machine be dedicated solely to the task of 12-Lead and vital trend transmission.
2. ZOLL does **not** require a server class machine (hardware) for the Digital 12-Lead and Vital Trend Transmission system.
3. Windows 2000 Server operating system and Terminal Services (on any operating system) are **NOT** supported.
4. Any deviation from the recommended list of hardware and software cannot be officially supported. Please contact ZOLL Data Support at (877) 677-6468 with any questions.
