**Loop 2010AA** provides information about the billing provider/submitting entity. This information is populated from the information you've added in Companies (see Administration>Companies).

**Loop 2010AB** contains Pay-to-Provider and should only output if you have information listed in the Pay-to-Provider field of your Medicare ANSI ECM (see Administration>Billing>Forms & ECMs>Edit>Click on Green Plug in>Pay-to-Provider Tab). Therefore, if the Pay-to-Provider is the same as the submitting entity, do not put information in the Pay-to-Provider field.
