

Cloud-Based EMS Transport Billing

ZOLL Billing automates workflows so that claims are routed properly and billing lag is kept to a minimum. Logical workflows make it easy to use, allowing billers to get accurate claims out faster.

Streamline the Claims Process to Increase Productivity and Revenue

Progressing a claim through its lifecycle is labor intensive and causes delayed reimbursements. ZOLL Billing allows you to quickly identify what claims are worth processing so you can optimize collections per claim, saving you time and money. The cloud-based solution also helps you easily gain visibility into monthly revenue, providing real-time snap shots into your cash flow.

Track Cash Flow in Real Time

Break down charges and payments by accounting period in real-time reports, and the payment prediction calculator helps you forecast expected payment as charges are added and Explanation of Benefits (EOB) are delivered.

Take Advantage of ZOLL-Provided Medicare Updates

Receive up-to-date changes to Medicare regions, Medicare Administrator Contractor (MAC) coverage and fee schedules so you don't have to.

Increase Claim Reimbursement

Verify submitted patient insurance coverage to reduce claim denials and increase clean claim submissions, and identify additional active insurance coverage for more than 10% of self-pay patients.

Achieve Exceptional Billing Performance, Value, and Interoperability

ZOLL Billing features include:

Cloud-Based – Because ZOLL Billing is cloud-based, there is no IT overhead expense.

Expected Payments – Quickly see what you're likely to get paid for each claim.

Built in Medicare Fee Schedule – When Medicare changes its fee schedule, updates happen automatically in ZOLL Billing, eliminating the tedious work of manually updating your system.

Linked Payor Fee Schedule – Any payer account that's linked to the Medicare fee schedule is automatically updated as changes occur, keeping your billing process efficient and accurate.

Account #73846, Balance: \$6,261.72

Class	Service date	Balance	Charges	Payments	Adjustments	Balance
10000000	10/02/19		\$1,770.00	\$800.00	\$0.00	\$970.00
10000000	10/02/19		\$1,770.00	\$0.00	\$0.00	\$1,770.00
10000000	10/02/19		\$1,030.00	\$438.86	\$808.42	\$1,030.72
10000000	10/02/19		\$1,030.00	\$0.00	\$0.00	\$1,030.00
10000000	10/02/19		\$1,770.00	\$0.00	\$0.00	\$1,770.00
10000000	10/02/19		\$0.00	\$0.00	\$0.00	\$0.00
Total			\$6,310.00	\$1,238.86	\$1,038.42	\$6,261.72

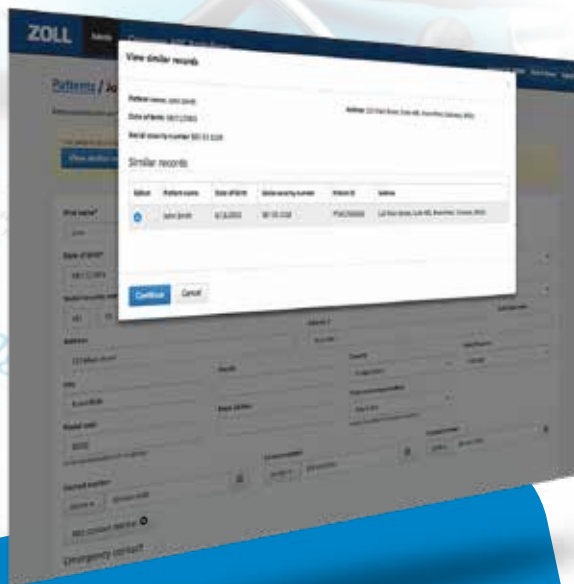

Light Touch Billing – Automation is built into the system to keep claims in motion with fewer keystrokes, and less manual handling and fee/code memorization.

ZOLL Billing Eligibility – Run patient eligibility to verify that the patient has active coverage on the claim's date of service.

Transport Types Supported – ALS/BLS Emergency and Non-Emergency for air and ground, including Specialty Care.
